L3: Entry 5 of 5

File: USPT

Feb 25, 2003

DOCUMENT-IDENTIFIER: US 6526099 B1  
TITLE: Transcoder

CLAIMS:

4. A transcoder according to any of claim 1, characterised by means in the encoder of the transcoder for performing pruning DCT algorithms in order to achieve fast transcoding.

15. A method according to any of claim 11, in the case when DCT algorithms are employed, characterised in that pruning DCT algorithms are used in order to achieve fast transcoding.
